Nominated by: NACWA National Office

FEDERAL PUBLIC SERVICE

The Honorable Dan Kildee (D-MI)

U.S. House of Representatives

Born and raised in Flint, Congressman Dan Kildee is a lifelong Michigander. In Congress he has proven he can bring people together and get real results. The Congressman represents 118 miles of Lake Huron shoreline and is committed to protecting the environment and the Great Lakes.

Rep Kildee has consistently supported funding to protect the Great Lakes and was active in his opposition when the current Administration proposed complete elimination of the Great Lakes Restoration Initiative (GLRI). He views the Great Lakes not only as an irreplaceable natural resource – but also invaluable to his state’s economy, jobs, and way of life.

As the water crisis in Flint unfolded, Congressman Kildee began working tirelessly to bring much needed relief to Flint families. He led the fight – bringing Democrats and Republicans together in Congress – to pass legislation to bring \$170 million in federal funds to the city to aid in its recovery and protect public health. And, he worked across the aisle to advance legislative solutions to better protect public health and prevent similar crises from recurring in other communities. NACWA members will remember his commitment to clean water and his impassioned remarks from the 2017 *Rally for Water* on Capitol Hill.

Rep. Kildee continues leading efforts to raise the profile of our nation’s water infrastructure among Members of Congress. He has led bipartisan delegations to his State to see firsthand the challenges local communities face and observe how federal funding is being put to work in Flint. He continues to advocate for strong federal support for the Clean Water and Safe Drinking Water State Revolving Funds, as well as for new programs to support investments in our nation’s public water and wastewater infrastructure.

Congressman Kildee has demonstrated leadership on emerging issues, including Per- and Polyfluoroalkyl Substances (PFAS). With the PFAS issue disproportionately impacting Michigan, his leadership on the federal level to bring attention to the issue and the need for federal government engagement is notable.

His career of commitment to the Great Lakes, water infrastructure, and clean water make Rep. Kildee a strong candidate for a 2019 Federal Public Service National Environmental Achievement Award.
