Avoid Requests for Revision! Is My Paper Formatted Correctly?

NOTE: The final PDF is "camera-ready". The author information on the final paper is the information that will appear in publication. Unsolicited revisions will NOT be accepted.

<u>CHECKLIST</u>:

Author Section

- ✓ The paper title is correct, free of spelling and typographical errors

- ✓ All authors of the paper are accounted for. No new authors have been added, and no author listings have been forgotten. **Authors cannot be added after acceptance of the draft. Removal of an author will require written agreement from all co-authors.**

- ✓ Author listings are shown in the correct order from left to right across the page, or shown using numbered superscripts.

- ✓ Author names are consistent with what is on the copyright form, shown as they should appear in copyright/publication/indexing, spelled correctly. No nicknames.

- ✓ Author names are shown in First Name Last Name format. Last names are spelled fully and not represented by initials.

- ✓ The affiliation shown on the paper is listed as it should appear in copyright/publication/indexing. If you completed your copyright agreement as an employee of the US Government or US Government Contractor, please be sure to list that institution as your primary affiliation.

- ✓ <u>No</u> contact information (mailing address, phone number, email address) is shown in the author section. The contact author can list his/her email address in a footnote at the bottom left of the first page.

- ✓ A City, Country or City, State (US) location is listed for each affiliation.

- ✓ The author section is formatted or condensed as necessary so that it does not take up the whole page.

Body of the Paper

- ✓ The text of the paper is formatted to fit the 2-column template, including the abstract.

- ✓ There is <u>no</u> use of highlighter, color font, or reviewer comments in the text.

- ✓ The text is single-spaced in regular font. The whole text should not be in italics.

✓ There is no non-English language text in the paper.

✓ The margins are correctly sized per the ASME template. Text does not interfere with the gutter margin of space between the columns.

Equations

✓ Equations are numbered correctly and sized to fit the width of the column.

✓ Equation characters and symbols are pasted clearly and correctly. No corrupt font.

Tables and Graphics

✓ Graphics are sized to fit the width of the column and do not interfere with the side or center margins.

✓ Graphics are not surrounded by wrapped text. They stand on their own within the column.

✓ Graphics and/or tables are not broken over two columns or two pages.

References

✓ The reference section is incorporated into the 2-column format shown in the template.

✓ Citations are formatted according to the References guidelines shown in the ASME Conference Publications Author Guidelines
