

Peer Review Management System (PRMS)

Paper Review Process

What is Different

- This is not an apples to apples reproduction of the current system
 - Most functionality still exists
 - It may be in a different format or location
 - Staff will create all sessions for tracks and topics
 - New Terminology
 - You will not see screens defined by roles of Track Organizer, Symposium Coordinator, Topic Organizer, Session Organizer, etc.

Schedule

- Process has many steps that must be done in series
 - All deadlines close at 11:59 pm ET
 - Reviewers will lose access to submissions at this time
- If you are late or incomplete to a deadline, it puts untenable pressure on the downstream steps
- **Deadlines are completion dates, not start dates**
- Start early!
- SC/TO/SO all need to check, monitor, support, and push along progress and quality throughout their span of responsibilities
 - Send reminders to start tasks and meet deadlines
 - Check status and address problems regularly
