

2026 Implementing Evidence-Based Practices Institute

Purpose

The Institute supports institutional capacity to incorporate data-driven evidence and accountability for continuous improvement to more intentionally advance and accelerate Latino, and all, student success. Learn how to assess impact and document intentionality to align to institutional goals. Institute draws on *Excelencia*'s experience of more than 20 years working with evidence-based practices that are a foundational element of the Seal of *Excelencia* framework.

Excelencia established the Seal of Excelencia, a rigorous, student-centered data-informed certification framework, that requires colleges and universities show momentum leading to continuous improvement in student completion and institutional outcomes.
