

AAPM SCIENCE COUNCIL ASSOCIATES MENTORSHIP PROGRAM

THE AAPM SCIENCE COUNCIL ASSOCIATES MENTORSHIP PROGRAM (SCAMP) has been established to recognize and cultivate outstanding researchers at an early stage in their careers, with the goal of promoting a long-term commitment to the advancement of science within AAPM. SCAMP uses the process of shadowing to integrate the Associates into scientific activities of the organization. Our review working group will select Associates then assign each one to a Mentor from the AAPM Science Council, Research Committee, Data Sciences Committee, Therapy Physics Committee, Imaging Physics Committee, Technology Assessment Committee, or subgroups thereof. The Associate will participate in selected meetings of their assigned Mentor's Committees and join a task group (chosen with input from the Mentor). Other shadowing AAPM-related activities include abstract review, Young Investigator judging, committee activities at the Annual Meeting, etc.
