National Council on Problem Gambling Agility Grants Program

The National Council on Problem Gambling (NCPG) launched the Agility Grants program in 2022. This strategic initiative, funded by the National Football League Foundation, offers grant funding to nonprofit organizations across the United States for problem gambling prevention programs.

Problem gambling—or gambling addiction—includes all gambling behavior patterns that compromise, disrupt or damage personal, family or vocational pursuits. The symptoms include increasing preoccupation with gambling, a need to bet more money more frequently, restlessness or irritability when attempting to stop, "chasing" losses, and loss of control manifested by continuation of the gambling behavior in spite of mounting, serious, negative consequences. In extreme cases, problem gambling can result in financial ruin, legal problems, loss of career and family, or even suicide. For more information on the American Psychiatric Association's criteria for gambling addiction, please see the DSM 5 at www.psych.org.
